DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-160 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The view of the Court of Customs and Patent Appeals on multiplicity were set forth in *In re Chandler*, 45 CCPA 911, 117 USPQ 361 (1958) and *In re Chandler*, 50 CCPA 1422, 138 USPQ 138 (1963) (Applicants latitude in stating their claims in regard to number and phraseology employed "should not be extended to sanction that degree of repetition and multiplicity which beclouds definition in a maze of confusion." 138 USPQ at 148.).

An unreasonable number of claims, that is, unreasonable in view of the nature and scope of applicant's invention and the state of the art, may afford a basis for a rejection on the ground of multiplicity. A rejection on this ground should include all the claims in the case inasmuch as it relates to confusion of the issue.

To avoid the possibility that an application which has been rejected on the ground of undue multiplicity of claims may be appealed to the Board of Patent Appeals and Interferences prior to an examination on the merits of at least some of the claims presented, the examiner should, at the time of making the rejection on the ground of multiplicity of claims, specify the number of claims which in his or her judgment is

Art Unit: 3663

sufficient to properly define applicant's invention and require the applicant to select certain claims, not to exceed the number specified, for examination on the merits. The examiner should be reasonable in setting the number to afford the applicant some latitude in claiming the invention.

In the present application, it is the examiners opinion that 50 claims are reasonable to cover the scope of applicant's invention.
